#### **Bolivia's President Declares 'Total Independence' From World Bank And IMF**

'These organizations dictated the economic fate of Bolivia and the world. Today we can say that we have total independence of them.' ... Bolivia's popular uprising known as the The Cochabamba Water War in 2000 against United States-based Bechtel Corporation over water privatization and the associated World Bank policies shed light on some of the debt issues facing the region... The Morales administration made enormous transformations in the Andean nation. The figures speak for themselves: the nationalization of hydrocarbons, poverty reduction from 60% to less than 40%, a decrease in the rate of illiteracy from 13% to 3%, the tripling the GDP with an average growth of 5% annually, the quadrupling of the minimum wage, the increasing of state coverage on all fronts, and the development of infrastructure in communications, transportation, energy and industry.

And above all, stability, an unusual word in the troubled political history Bolivia... “

**“New Research Documents the U.S. Military’s Contribution to Climate Change...** The [report](#) documents that between 2001 and 2017, the years for which data is available since the beginning of the war on terrorism with the U.S. invasion of Afghanistan, the U.S. military emitted 1,200 million (or 1.2 billion) metric tons of greenhouse gases. For reference, this is equivalent to the annual emissions of 257 million passenger cars, more than double the amount the U.S. currently has on the road. If the Department of Defense were a country, its 2017 emissions alone would have made it the 55<sup>th</sup> largest greenhouse gas emitter in the world, greater than entire industrialized countries such as Portugal or Sweden... The largest portion of Pentagon fuel consumption is for military jets... This report highlights that current discussions of how to reduce and mitigate climate change must consider Pentagon fuel usage...” *To view the full report from Costs of War Project, click [here](#).*

*More news from Fairbanks Housing and Homeless Coalition:*

**“Rapid Re-Housing: My Place** is the community formed RRH program housed at the Fairbanks Rescue Mission. When making referrals for this program please remember the referral is actually for a Coordinated Entry assessment not direct placement into the program and also RRH does not provide preventative services.

*My Place* is designed for people currently experiencing homelessness.

**“Fairbanks Rescue Mission is Hiring:** FRM is hiring for a Woman’s Shelter Manager and a Construction Manager.

For more information please email [admin@fairbanksrescuemission.org](mailto:admin@fairbanksrescuemission.org).

**“HUD/VASH:** The HUD/VASH program currently has 35 vouchers for homeless veterans. If you know of any vet that could use this service please contact Janet McDermott [janet.mcdermott@va.gov](mailto:janet.mcdermott@va.gov)

**“NSCF:** David Leslie is now serving as the North Star Community Foundation Summer Associate VISTA. David had several great ideas about using social media to conduct outreach. One of David’s ideas is for Fairbanks to develop an unifying hashtag for local resources to generate conversation around available or needed resources. David mentioned that Facebook, Twitter, and Instagram can all be linked so a post on one automatically goes to all three.

Also, David offered to help out any organization that is interested in his assistance with social media.”

**“Cheerios, Nature Valley cereals contain Roundup ingredient, study finds**

- 21 oat-based cereal and snack products such as Cheerios tested positive for traces of glyphosate.
- The chemical is the active ingredient in Roundup, which has been at the center of several trials alleging the weedkiller causes cancer.
- All but four of the products tested had glyphosate levels higher than what an environmental group considers safe for children...”

***Audio & Songs broadcast with this week's Community News and Opportunities:***

— This is the Asymmetric Moose, Rob Mulford, with the Asymmetric Moose Music Picks for the week of June 16, 2019. Today I will be featuring four more individuals and organizations who are working to make our community and earth, a better healthier place for all our relatives, the two legged, the four legged, the ones who soar or dart about on wing, the ones who swim in the water, and the indispensable creepy crawlies.

We'll start with, Project Citizen, a group of eighth graders who do research on those things that affect the health and well being of our community, and then become engaged advocating changes for the better. We'll then move on to Kids for Environmental Action, a group of young people who for a few years now have been at the forefront of air quality issues, and who are now addressing the problem of plastic shopping bags.

Then, Nana Paldi will speak on the effort to keep our wonderful Fox Spring providing us with delicious natural clean water, as well as efforts to clean up the toxins that are threatening our water table.

After Nana, Tonya Brown will speak on the importance of cleansing our bodies and bodies of water.

Finally I'll play a tune that I remember enjoying in 1970, when as a high school student I took part in the first earth day. The tune is by the band Spirit, Nature's Way.
